Introduction

This report is the monthly performance summary of the Mission Support Contract as managed by Mission Support Alliance, LLC. Only MSA work scope responsibilities are described, and other contractor/RL-managed work is excluded.

Section A, Overview, provides a summary of the cost, schedule, and technical performance described in this report. It summarizes performance for the period covered, highlights areas worthy of management attention, and provides key performance activities as extracted from the contractor baseline.

Subsequent sections of this report (B through E) provide detailed performance data relative to contract sections (e.g., Safety, Security and Environment, Site Infrastructure and Utilities, etc.) by the Project Baseline Summary (PBS). All information is as of the end of September 2009 unless otherwise noted.
